

To Whom This May Concern,

I am honored to recommend AAA OSHA Training and Safety Consultants, Inc. as Safety Training and Consultant firm for the General Services Administration.

AAA Safety Consultants and I worked together on the below listed projects over the past 4 years in which they had provided their professional services and in which has set a new bar in respect to a 100% safe and friendly work environment.

1. NIST – ESPC –ECM 10.1 – 7.9 MW CHP Addition at NIST – Gaithersburg Campus this past year. (20 Million) 40,000 Man hours
2. Genzyme Fabrazyme Project. Framingham, MA (7.8 Million) 20,000 Man Hours
3. Regis College New Dormitory and Site Utilities Project, Weston, MA. (18 Million) 30,000 Man Hours

My time working with AAA Safety Consultants has been an extremely professional and pleasant. They have provided their expertise with executing safe work plans on numerous occasions to assist with the multiple trades. They are honest, dependable, incredibly hard-working, and have great integrity. Beyond that, they have an impressive ability to plan, lead, communicate, and instruct occupational and construction safety in a team with multiple trades personnel, project managers, QA/QC professionals, and Government representatives. They are driven to achieve the best value for the Government client.

AAA Safety’s knowledge of occupational and construction safety in EM-385 and OSHA within private and federal government facilities and industrial environments far exceeds the industry norms. Their knowledge of all the utilities associated with manufacturing facilities along with the industrial facilities has proved to be an asset on all projects. They use and put all of their skillsets within these environments to train and protect all personnel onsite. The following are

just a few examples of many activities that they have provided unsurpassed excellence with, crane lift plans, fall protection, reviewing activity hazardous analysis (AHA), reviewing and advising on contractor safety plans, high-voltage work plans, and trench safety. They performed daily safety inspections, lead safety briefings at the preparatory meetings, and kept and maintained the onsite safety records.

Please feel free to contact me at 240-841-5947 if you have any questions regarding the expertise that AAA Safety Consultants can and will bring to any project.

Kind Regards,
